Proposition of the ESD curriculum scheme

Social Issues
 Social well-being
 Critical thinking
 Environmental Ethics

Environmental Issues
 Environmental Protection
 Principles of Ecology
 Human Ecology

Economic Issues
 Sustainable community
 Sustainable Economics
 Law, Government, Society

Figure created for the NETT DEVISE Project

Project Result 1:

Curriculum on ESD

Curriculum to the extent of 9 ECTS / 4.5 credits for ESD, including digital badge or micro credential

2

**Virtual Intercultural Mentoring
 introduction video**

**Part 3: Cultural influences on
 communication**

Dr. phil. des. Simone Kraiss
 Elisabeth Ahner-Tudball

Project Result 3:

Green intercultural mentoring tool kit

Adding ESD related competencies to an existing mentoring program on mindful intercultural communication skills. This also means raising the quality of awareness and self-reflection.

**Intercultural communication skills + mindfulness + sustainability competencies
 = training for students to become change agents**

3

Project Result 4:

**Training for lecturers on how to plan
 and conduct a Virtual Exchange**

Basis of the training framework is the "Co-Laboratory Training in Virtual Exchange" created by the project EVOLVE. Our adaption of the training will be based on

1. a needs analysis within the project in three phases: broadcasting phase, scouting phase, needs analysis phase
2. **the Green intercultural mentoring tool kit**, which will be complemented by a "how to use" staff training module – including a self-experience for faculty.
